SHERRILL

Bars & Credenzas by design

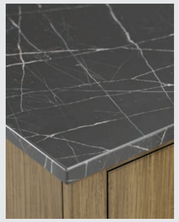

Create a piece that's uniquely yours with the SHERRILL Bars & Credenzas by Design program. Choose from a wide range of sizes, configurations, finishes, and details—from tops and hardware to doors and drawers—to craft a solution tailored to your space. Designed for versatility, these pieces transition seamlessly throughout the home as a media console, refreshment bar, coffee center, or storage cabinet. Proudly made in the USA, each piece reflects SHERRILL's commitment to quality craftsmanship and personalized design.

AMERICAN MADE
FAMILY **OWNED**

FRONT COVER: 45ZL-443EBP - TOP: LIGHT STONE TOP, FRONTS: REEDED, LEG: SABRE, FINISH: SKY BLUE (BP), HARDWARE: SATIN BRASS (E) 964-856, CHICLET COCKTAIL TABLE

Customize Your Top

Choose a wood or stone top. Stone options are available in light or dark finishes, with standard 20” depth or 28” bar depth. You may also omit the factory top and provide your own custom stone to coordinate with your space.

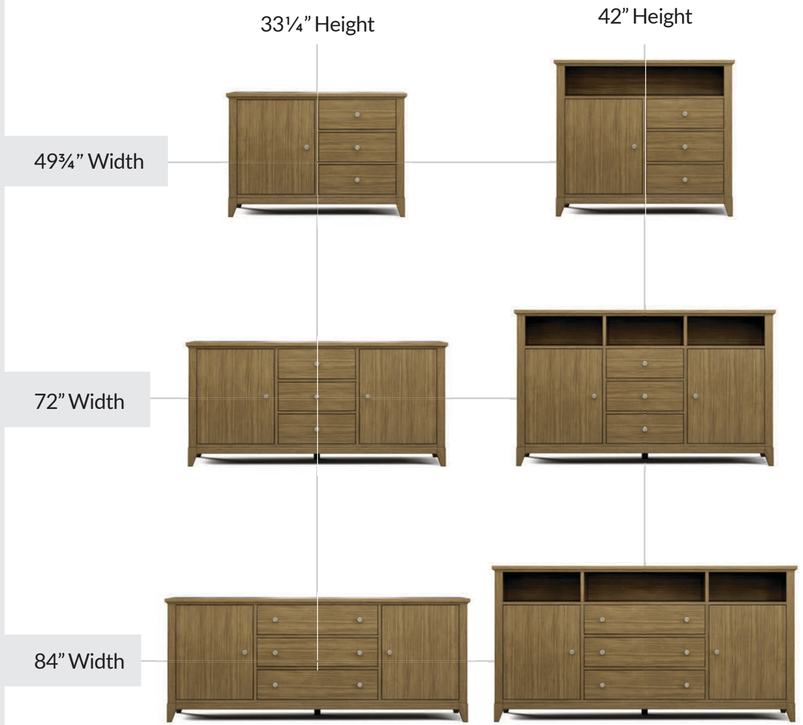

28” bar depth with 8” overhang

Shown with average-height adults and bar stool for scale.

Create Your Ideal Bar or Storage Furniture

Select from 3 Widths and 2 Heights plus multiple configurations. Then customize your door + drawer front styles, hardware, base styles, wood finishes and top materials.

7. Select Your Perfect Finish

The walnut veneers and maple solids used on this furniture are natural materials that absorb finish differently from one piece of wood to the next.

Most Revealing Finishes

Cashew (C4) and Natural Walnut (NT) are our least concealing finishes and highlight the unique character and beauty of walnut wood. These are clear finishes that bring out the differences in color and grain pattern of each piece of wood on the furniture.

Cashew

Natural Walnut

Medium Coverage Finishes

Cotswold (G1), Greystone (G4), Modern Elm (A2) and Ore (G3) are medium to darker finishes that showcase the wood character and use their own color base to balance out the natural color variation in the wood. The medium stains allow the natural wood character to show through, while the darker finishes create more consistency.

Cotswold

Greystone

Modern Elm

Ore

Most Consistent Finishes

Mushroom (M1), Sandstone (P6) and Steel (G2) use a paint base, light brushing and color hangup to accent the texture of the woods. These finishes create a high level of finish consistency from piece to piece and mask the natural colors of the wood, while allowing the grain and texture to show through.

Mushroom

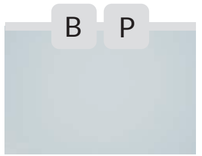

Sandstone

Steel

Painted Finishes

Sky (BP), Navy (NP), Sage (GP), Coal (CP) and Cotton (WP)are painted finishes that create the most consistency and conceal the natural colors of the wood, while allowing the grain and texture to show through.

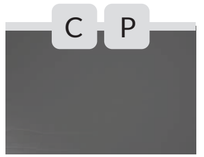

Sky

Navy

Sage

Coal

Cotton

What type of wood is the furniture made of?

Sherrill Bars & Credenzas by Design are made with Walnut Veneers and Maple Solids sustainably harvested in the USA.

Custom Finishing Details

Color Match, Combination Finishes and Hand Striping are available in the Bars & Credenzas by Design program. See price list for details.
